MEMORANDUM FOR: DRI
DD&T
Chairman, BNE
Chairman, COMIREX ✓

SUBJECT : CCPC Study on Cuba

1. The Critical Collection Problems Committee (CCPC) has been requested to identify all collection, processing and intelligence production activities which are directed entirely or in significant part at Cuba or at Cuban targets in third countries.
2. In this connection, addressees of this memorandum are requested to furnish the following information, as appropriate to their respective areas of jurisdiction.
 - a. A description of each collection, processing or production activity, including the responsible organization and target.
 - b. The costs and manpower associated with each activity in fiscal year 1969 and 1970. Where pertinent, direct and supporting costs should be shown separately.
 - c. In cases where a particular operation or activity serves both intelligence and non-intelligence functions, such as training, indicate the allocation effort, including costs, between the several functions.
 - d. The requirements or other justification for undertaking the activity, including the identification of the requesting authority and latest date of requirement or other justification.

SECRET

- 2 -

e. Description of the intelligence output or product resulting from each activity. As feasible, this description should show which collection activities provide unique data and which provide supplementary or confirmatory information.

f. Plans for termination of any listed activities or for the initiation of new activities.

3. Reports covering the items set forth above are requested not later than 27 January 1969.
